

**2 Cores Spiral Shield Microphone Cable****Utilisation :**

Internal distribution of voice and data transmissions.

This cable is recommended for hi-speed (medium to high band) data transmission.

**Construction :**

Conductor	Stranded tinned copper wires (16/0.16mm x 2 cores), twisted pair
Insulation	Polyethylene
Shield	Spiral wrapped tinned copper wires (64/0.12mm)
Sheath	PVC

**Dimensions :**

Conductor Diameter	0.64mm (AWG 22)
Insulated Core Diameter	1.91mm
Overall Diameter	5.84mm

**Specifications :**

Insulation Resistance	Min. 5 Megaohm/km
Operating Temperature	-20°C to +60°C
