

## GF-8630R/8640R CATV DISTRIBUTION AMPLIFIER

## **Features**

- \* Deluxe aluminum housing for excellent head-sinking.
- ¾ 60 dBmv (120dBμv) high output level.
- ★ -20 dB input/output test point.
- \* Tilt control & gain control continuously adjustable.
- \* Built-in power supply for easy installation.
- % Comply with EN50083-1:1993 / EN50083-2:2001 / EN50083-3:2002

## **Specifications**

**Operation Frequency Range** 54 - 862 MHz

Output Level 60 dBmv (120dBuv)

Gain Typical 30 dB (GF-8630R series)

Typical 40 dB (GF-8640R series)

Reverse Gain 0 or 20 dB (option)

Gain Control  $0 \sim -20$  dB continuously adjustable  $0 \sim -20$  dB continuously adjustable Tilt Control

Gain Flatness  $\pm 2.0 dB$ **Return Insertion Loss**  $\leq 4 \, dB$ Input Return Loss  $\geq 10 \, \mathrm{dB}$ Output Return Loss  $\geq 10 \, \mathrm{dB}$ Screen Factor > 60 dB6.0 dBNoise Figure Input & output Impedance  $75 \Omega$ Input & output test point -20 dB Connector All F-type

Power Supply  $190V \sim 230V AC$ **Power Consumption** 6W (GF-8630R)

9W (GF-8640R)

**Operating Temperature** -10 ∼ +50°C

AC Fuse (internal) 0.5 Amp/GF-8630R

0.63 Amp/GF-8640R
